Course Syllabus

Enterprise Portal Development in Microsoft Dynamics® AX 2009

(Elements of this syllabus are subject to change.)

Key Data:

Course number: 80015

Instructor-Led Training (lecture and labs)

Student Materials: Microsoft Official Curriculum (MOC)

Certification Exam: MB6-825: AX 2009 Enterprise Portal Development

Introduction: The training introduces the student to Microsoft Dynamics® AX 2009 Enterprise Portal. This course begins with the basic installation and configuration of Enterprise Portal. The student will then learn about the development environment of Enterprise Portal and will be able to build a functional Web site using new and existing

Enterprise Portal application objects. Because Enterprise Portal in Microsoft Dynamics AX 2009 is dependent on Windows® SharePoint Services, much of this course works within SharePoint Services.

Prerequisites

Before attending this course, students should have:

- General knowledge of Microsoft® Windows®.
- Microsoft Dynamics AX navigation is helpful but not required for this course.
- General Knowledge of Windows SharePoint Services.
